## Questions about the app

- What does the app do?
- For which year does the app creates the tax declaration?
- How long does it take to prepare the tax declaration?
- Do you also offer tax advice?
- Who can not use Taxfix for his tax declaration?
- I still have questions. Can you help?

### What does the app do?

Taxfix can help you with your tax declaration.

By answering simple interview-style questions the Taxfix assistant gathers all the required information. The app uses this information to automatically fill in the official tax form in the background. Once the questions have been successfully answered, you can submit the tax return directly electronically from your smartphone or via web browser to the tax office.
